

(f) Nothing in this subpart prohibits officers or employees of agencies from responding to requests for information.

(g) Contracting officers may, unless they have evidence to the contrary, presume the notice was published one day after transmission to the GPE. This presumption does not negate the mandatory waiting or response times specified in paragraphs (a) through (d) of this section. Upon learning that a particular notice has not in fact been published within the presumed timeframes, contracting officers should consider whether the date for receipt of offers can be extended or whether circumstances have become sufficiently compelling to justify proceeding with the proposed contract action under the authority of 5.202(a)(2).

(h) In addition to other requirements set forth in this section, for acquisitions covered by the World Trade Organization Government Procurement Agreement or a Free Trade Agreement (see subpart 25.4), the period of time between publication of the synopsis notice and receipt of offers must be no less than 40 days. However, if the acquisition falls within a general category identified in an annual forecast, the availability of which is published, the contracting officer may reduce this time period to as few as 10 days.

5.204 Presolicitation notices.

Contracting officers must provide access to presolicitation notices through the GPE (see 15.201 and 36.213-2). The contracting officer must synopsise a proposed contract action before issuing any resulting solicitation (see 5.201 and 5.203).

[66 FR 27411, May 16, 2001]

5.205 Special situations.

(a) *Research and development (R&D) advance notices.* Contracting officers may transmit to the GPE advance notices of their interest in potential R&D programs whenever market research

does not produce a sufficient number of concerns to obtain adequate competition. Advance notices must not be used where security considerations prohibit such publication. Advance notices will enable potential sources to learn of R&D programs and provide these sources with an opportunity to submit information which will permit evaluation of their capabilities. Contracting officers must consider potential sources which respond to advance notices for a subsequent solicitation. Advance notices must be entitled "Research and Development Sources Sought," cite the appropriate Numbered Note, and include the name and telephone number of the contracting officer or other contracting activity official from whom technical details of the project can be obtained. This will enable sources to submit information for evaluation of their R&D capabilities. Contracting officers must synopsise (see 5.201) all subsequent solicitations for R&D contracts, including those resulting from a previously synopsized advance notice, unless one of the exceptions in 5.202 applies.

(b) *Federally Funded Research and Development Centers.* Before establishing a Federally Funded Research and Development Center (FFRDC) (see Part 35) or before changing its basic purpose and mission, the sponsor must transmit at least three notices over a 90-day period to the GPE and the FEDERAL REGISTER, indicating the agency's intention to sponsor an FFRDC or change the basic purpose and mission of an FFRDC. The notice must indicate the scope and nature of the effort to be performed and request comments. Notice is not required where the action is required by law.

(c) *Special notices.* Contracting officers may transmit to the GPE special notices of procurement matters such as business fairs, long-range procurement estimates, prebid or preproposal conferences, meetings, and the availability of draft solicitations or draft specifications for review.

(d) *Architect-engineering services.* Contracting officers must publish notices of intent to contract for architect-engineering services as follows:

(1) Except when exempted by 5.202, contracting officers must transmit to

the GPE a synopsis of each proposed contract action for which the total fee (including phases and options) is expected to exceed \$25,000.

(2) When the total fee is expected to exceed \$10,000 but not exceed \$25,000, the contracting officer must comply with 5.101(a)(2). When the proposed contract action is not required to be synopsisized under paragraph (d)(1) of this section, the contracting officer must display a notice of the solicitation or a copy of the solicitation in a public place at the contracting office. Other optional publicizing methods are authorized in accordance with 5.101(b).

(e) *Effort to locate commercial sources under OMB Circular A-76.* When determining the availability of commercial sources under the procedures prescribed in subpart 7.3 and OMB Circular A-76, the contracting officer must not arrive at a conclusion that there are no commercial sources capable of providing the required supplies or services until publicizing the requirement through the GPE at least three times in a 90 calendar-day period, with a minimum of 30 calendar days between notices. When necessary to meet an urgent requirement, this may be limited to a total of two notices through the GPE in a 30 calendar-day period, with a minimum of 15 calendar days between each.

(f) *Section 8(a) competitive acquisition.* When a national buy requirement is being considered for competitive acquisition limited to eligible 8(a) concerns under subpart 19.8, the contracting officer must transmit a synopsis of the proposed contract action to the GPE. The synopsis may be transmitted to the GPE concurrent with submission of the agency offering (see 19.804-2) to the Small Business Administration (SBA). The synopsis should also include information—

(1) Advising that the acquisition is being offered for competition limited to eligible 8(a) concerns;

(2) Specifying the North American Industry Classification System (NAICS) code;

(3) Advising that eligibility to participate may be restricted to firms in either the developmental stage or the developmental and transitional stages; and

(4) Encouraging interested 8(a) firms to request a copy of the solicitation as expeditiously as possible since the solicitation will be issued without further notice upon SBA acceptance of the requirement for the section 8(a) program.

5.206 Notices of subcontracting opportunities.

(a) The following entities may transmit a notice to the GPE to seek competition for subcontracts, to increase participation by qualified HUBZone small business, small, small disadvantaged, women-owned small business, veteran-owned small business and service-disabled veteran-owned small business concerns, and to meet established subcontracting plan goals:

(1) A contractor awarded a contract exceeding \$100,000 that is likely to result in the award of any subcontracts.

(2) A subcontractor or supplier, at any tier, under a contract exceeding \$100,000, that has a subcontracting opportunity exceeding \$10,000.

(b) The notices must describe—

(1) The business opportunity;

(2) Any prequalification requirements; and

(3) Where to obtain technical data needed to respond to the requirement.

5.207 Preparation and transmittal of synopses.

(a) *Content.* Each synopsis transmitted to the GPE must address the following data elements, as applicable:

(1) Action Code.

(2) Date.

(3) Year.

(4) Government Printing Office (GPO) Billing Account Code.

(5) Contracting Office Zip Code.

(6) Classification Code.

(7) Contracting Office Address.

(8) Subject.

(9) Proposed Solicitation Number.

(10) Opening and Closing Response Date.
